

Small steps. Useful progress records.

\$250 per school, per year

25 free family seats. Staff tools. Direct support from Bob.

P-card friendly. Invoice or PO welcome. No automatic renewal.

Bring practice into IEP progress notes

See family activation, practice scenarios and dated video creation / viewing activity. Use this record alongside your school observations - not as a clinical assessment or proof of goal mastery.

Included for your building

- All-staff clinician / SLP desktop app access, with a short setup call.
- 25 full-access family seats. Families pay nothing and need no credit card.
- School Support Kit: IEP goal language, 504 accommodations, teacher one-pagers and classroom scripts.
- School dashboard: activation, shared practice activity and remaining seats.
- Direct email support from Bob, a former special ed teacher and SM dad.

How it works

Buy or arrange a PO. Get a unique school code. Share it with families, who create an account and redeem their seat on the parent welcome page.

3+ schools: \$200 each per year. 10+: ask for a flat district quote.

Privacy, clearly explained

Desktop recordings stay on the device. The family web app uses private cloud storage. Families acknowledge sharing before joining; school reporting never includes their recordings, audio or private notes. Follow your school privacy and purchasing requirements.

Card payment or invoice / PO - a W-9 is available on request.
